## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1 – 7, 9 – 17 and 19 – 23 are allowed.
2. The following is an examiner's statement of reasons for allowance: prior art of record does not teach, or fairly suggest the method, computer program or system used for correcting rule violations of a photomask that includes: performing optical corrections on the original design shapes to generate altered shapes; identifying minimum width rule and minimum space rule violating areas in the photomask; comparing the altered and original design shapes, and determining if the violating area lies inside the original design shape, and at least a portion of the violating area lies outside the original design shape; and eliminating the rule violations by manipulating a portion of the violating area outside the original design shape differently from the violating area inside the original design shape.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
